Rushabh Jadhav – Front End Developer

Mumbai, Maharashtra | +91 8355907597 | rushabhjadhav666@gmail.com | www.linkedin.com/in/rushabh-jadhav-002294249/ | www.github.com/RushabhJadhav

Profile

Detail-oriented Web Developer with 2.5 years of experience building scalable web applications using modern JavaScript frameworks (React, Vue). Proficient in HTML, CSS, and JavaScript. Proven ability to deliver user-centric solutions that enhance engagement.

Experience

ASSISTANT CONSULTANT - SOFTWARE | CREDENCE ANALYTICS, MALAD, MUMBAI | MAY 2023 – SEPTEMPBER 2025

·   Migrated Vue applications from Vue 2 to Vue 3, adopting Vite over Webpack to enhance build times and application performance.
·   Oversaw the integration of React.js through a micro-frontend architecture, ensuring compatibility and seamless functionality across disparate system components.
·   Managed maintenance and enhancement of legacy Backbone.js applications, focusing on critical bug fixes.
·   Redesigned and enhanced Vue.js and React.js applications, significantly improving functionality and optimizing user interface elements.
·   Focused on increasing the responsiveness and performance of applications, utilizing Vue.js to create dynamic and efficient web interfaces.

Education

BACHELOR OF ARTS IN PSYCHOLOGY & POLITICAL SCIENCE | JUNE 2022 | SHRI BHAUSAHEB VARTAK COLLEGE, BORIVALI, MUMBAI

Skills

LANGUAGES: HTML, CSS, Javascript, Typescript

FRAMEWORKS/LIBRARIES: React, Vue , Vuex, Redux, Bootstrap, Tailwind, Sass/Scss

TOOLS/TECHNOLOGIES: GIT, Vite, Webpack, Jest

Projects

1. IDEAL6 :

Tech Stack: Backbone Js, Vue Js, Vuex, Bootstrap, SCSS, Jest

Banking platform for managing securities and deal workflows. Contributed to bug fixes in Backbone.js modules and developed new screens using Vue 2; later supported migration efforts to modern Vue 3 architecture with Bootstrap and SCSS. Unit testing was implemented using Jest to ensure reliability of new components.

2. CASHTREA :

Tech Stack: React Js, Redux, Typescript, Tailwind, SCSS, Jest

Treasury management system for institutional finance. Built new modules using React.js, implemented Redux for state management, and styled components with TypeScript, Tailwind CSS, and SCSS. Applied Jest for testing Redux logic and React components across modules.

3. MERCURYFX:

Tech Stack: Vue Js, Pinia, Tailwind, SCSS, Jest

Forex transaction portal for real-time currency exchange. Developed dynamic interfaces using Vue 3 with Composition API, managed state via Pinia, and crafted responsive layouts with Tailwind CSS and SCSS. Used Jest to validate component behavior and ensure consistent performance.

Certification

Credence Frontend UI Developer Associate

Generative AI Foundations Certificate Program
